EXECUTIVE SUMMARY

One RBC: Two Cultures, One Unified Experience

QUESTION

How can RBC deliver a seamless, high-confidence integration of HSBC in Canada, protecting HNW clients, unifying culture, and ensuring consistent service while establishing RBC as a globally capable, premium bank?

CHALLENGES

- Two Different Banking Cultures
- Risk of Client Confidence Loss during Migration
- Employees need Direction, Training & Clarity

SOLUTION

The "One RBC Experience" Strategy

oneRBC

Build **One RBC** by unifying culture, training, and expectations across the combined organization, eliminating "two-bank" service delivery.
Standardized processes and HNW support desks create a reliable, premium client experience during migration.

IMPACT

$5B–$15B+	40–60%	$3M–$7M
HNW Assets Protected	Migration Errors Reduced	FX Revenue Lift in 12-24 months

INTEGRATION LANDSCAPE

Understanding the cultural and operational realities shaping the RBC–HSBC merger in Canada's banking environment

Canadian Banking Environment

Canada's Banking Environment

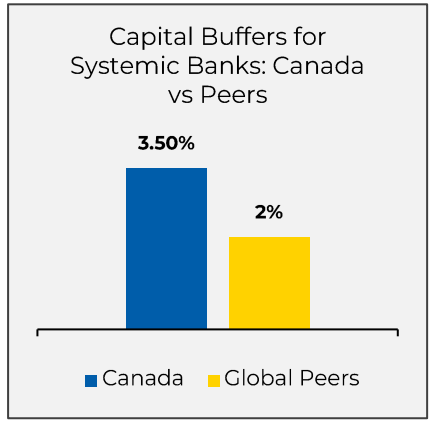
- Among the **world's safest, most stable banking systems**
- Clients prioritize stability, trust, consistency, and advice
- **High regulation** — no tolerance for service disruptions

RBC's Cultural Strengths

- Values rooted in advice, empowerment, and discipline
- Proven **risk management** and **operational consistency**

Integration Implication

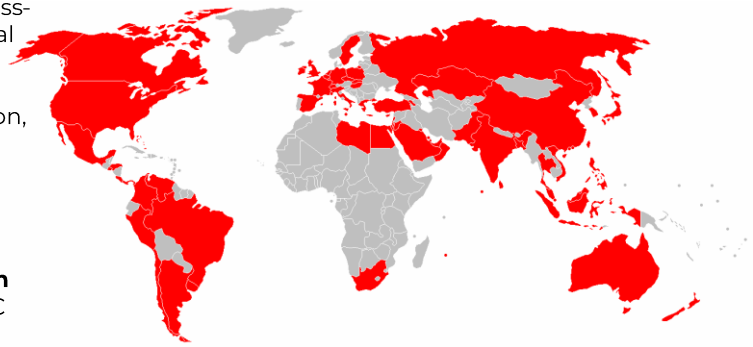
- GTR clients require certainty, clarity, and seamless continuity
- Integration playbook must **minimize risk and variability** while maximizing confidence at every touchpoint



HSBC Global Identity

HSBC: A Global-Mobility Banking Mindset

- **Multi-country client profiles**, cross-border transfers, and multicultural teams define the HSBC model
- Advisory expertise spans relocation, residency changes, international tax planning and global wealth flows.
- RBC must preserve these global capabilities to **avoid a perception of "downgrade"** for former HSBC clients.



Global M&A Benchmarks: What Works, and What Fails

CULTURE FIRST
(Bank of America × Merrill Lynch)

- **Culture clash** — top talent left
- Client portfolios followed departing advisors

EMPOWER FRONTLINE
(Wells Fargo × Wachovia)

- Unclear scripts caused client confusion
- **Inconsistent answers** eroded trust

PRESERVE CORE STRENGTHS
(Scotiabank × ING Direct)

- Forced assimilation risks client loss
- **Preserving ING's model** kept loyalty high

RETAIN SPECIALISTS
(JPMorgan × Bear Stearns)

- Losing specialists = losing HNW clients
- **Early retention packages** stabilized relationships

Effort–Impact Prioritization Matrix

Filtering What Actually Moves the Needle

Quick Wins
- Leadership alignment cadence
- Multilingual, clear communication

Strategic Priorities
- HNW global-premium experience
- Mixed RBC–HSBC integration pods

Minimal Value
- Cosmetic rebranding
- Surface-level team activities

Deprioritized
- Full system rebuilds
- Nationwide re-engineering

Impact → Effort

RBC must balance Canada's stability with HSBC's global capabilities to deliver a seamless, high-confidence client experience throughout the integration

PEOPLE INTEGRATION

Aligning culture, leadership, and talent to build the employee confidence required for a smooth and consistent integration

The 3S framework shows that when Style, Skills, and Staff align under shared leadership and cultural norms, employees gain the confidence needed to deliver a smooth integration

A **shared cultural foundation** reduces variability and ensures employees deliver consistent behaviors across branches

Aligned leaders set clear expectations, stabilize teams, and drive confidence during the integration

Retaining and **empowering key talent** minimizes disruption and accelerates readiness for client-facing execution

3S CULTURAL DIAGNOSTIC

Pillar

STYLE

Insight

RBC	HSBC
• Domestic • Structured • Advice-led • Collaborative	• Global • Agile • Multicultural • Cross-border oriented

Implications

- Shared leadership norms needed to unify behaviors across teams
- Standardized client-handling expectations to eliminate service inconsistencies

SKILLS

Insight

RBC	HSBC
• Deep domestic retail • Wealth expertise	• International wealth • Forex • Trade finance • Multilingual skills

Implications

- Combine domestic depth with global expertise to strengthen advisory quality
- Create a differentiated “global Canadian bank” by blending complementary capabilities

STAFF

Insight

RBC	HSBC
• Long-tenured • Stability-focused	• Diverse • Mobility-oriented • International experience

Implications

- Transparent role-mapping essential to maintain fairness and reduce uncertainty
- Retain key HSBC talent to preserve global knowledge and client continuity

CLIENT INTEGRATION

HSBC's globally integrated platform highlights key areas where RBC's current offering falls short for internationally mobile HNW clients

HSBC sets a global benchmark across five capabilities where RBC faces critical gaps that directly threaten HNW retention and migration success

CROSS-BORDER CAPABILITES

What HSBC Offers:

- Near **real-time international transfers**
- Unified global client/KYC profile

Where RBC Falls Short:

- **Transfers take days**, not minutes
- No integrated cross-border KYC

ADVISORY MODEL

What HSBC Offers:

- **Deep global mobility**, tax, and relocation expertise
- Advisory teams trained on international family planning

Where RBC Falls Short:

- Primarily domestic advisory capability
- **Limited expertise for global/HNW** newcomer scenarios

MIGRATION EXPERIENCE

What HSBC Offers:

- **High-touch onboarding** with global consistency
- Coordinated documentation + clear communication

Where RBC Falls Short:

- **Branch-level variability** and duplicate KYC checks
- No central ownership of complex/HNW transitions

MULTI CURRENCY PRODUCTS

What HSBC Offers:

- 10–20 currency accounts with **advanced FX tools**
- FX locks, forwards, and automated conversions

Where RBC Falls Short:

- **Limited to USD accounts** with fewer FX features
- Advisors not equipped to structure multi-currency wealth solutions

HNW GLOBAL PREMIUM EXPERIENCE

What HSBC Offers:

- **Global concierge** with relocation support
- Seamless multi-country servicing for mobile HNW

Where RBC Falls Short:

- Strong domestic model, but **no unified global-premium tier**
- Risk of perceived downgrade vs HSBC Premier

ALTERNATIVES AND THE RECOMMENDED MODEL

Evaluating integration pathways to determine which model best supports aligned culture, confident employees, and consistent client experiences

Alternatives create fragmentation, only the One RBC Experience Model builds alignment, confidence, and trust at every step of the migration

Outsourced HNW Advisory Pods

Use external financial planners or global advisory firms to support HNW clients during transition

PROS
- Fast access to global expertise
- Reduces pressure on RBC teams during GTR

CONS
- Loss of client trust
- Data privacy risks
- Advisor quality inconsistent
- Weakens RBC's premium brand

Digital Migration First Approach

Building of digital-first migration experience and delay people/culture alignment

PROS
- Faster client-facing rollouts
- Appealing to younger HNW clients or global newcomers

CONS
- Leaves frontline employees unsure, unaligned, and inconsistent
- Client confusion rises if digital tools do not match branch behavior
- GTR success requires people readiness, not technology first

HSBC Legacy Team Absorption (Staff-Lift Model)

Absorb all HSBC frontline staff into RBC as-is, preserving their processes and roles

PROS
- Preserves global expertise
- Minimizes short-term migration disruption

CONS
- Reinforces a two-culture environment
- No standardization of service behaviors
- Conflicts with RBC's advice-driven model
- Creates friction between legacy RBC and incoming HSBC teams

★ One RBC Experience Model

A unified model that aligns leadership, standardizes behaviors, and delivers one consistent client experience across RBC

PROS
- Clarity, training, and psychological safety prepare employees for high-stakes migration activity
- Standardized actions remove the HSBC–RBC culture divide and ensure one experience.
- A unified experience reduces churn and deepens relationships across all segments.

CONS
- Leaves frontline employees unsure, unaligned, and inconsistent

Decision Matrix to evaluate different alternatives

Criteria	Outsourced HNW Advisory Pods	Digital Migration First Approach	HSBC Legacy Team Absorption	★ One RBC Experience Model
Leadership Alignment	2	3	3	4
Employee Confidence	2	2	4	4
Culture & Behaviour Consistency	1	2	2	5
Migration Execution Quality	5	4	5	4
Client Trust & Communication	4	3	4	3
Long-Term Scalability	1	3	2	4
Total	**15**	**17**	**20**	**24**

IMPLEMENTATION PLAN

A phased 12-month roadmap that protects HNW revenue, stabilizes employees, and prepares RBC for a national rollout

12-Month Merger Integration Roadmap: Revenue Retention and HNW Protection

Task	Set up the merger integration team	Leadership change management	Design end-to-end experiences for HNW and newcomer clients	Launch the GTR pilot and protect HNW clients	Measure results and prepare to roll out across Canada
Actions	• Create a team to run and monitor the migration	• Write a short cultural integration guide for leaders • Run workshops with about 50 leaders	• 3–4 critical experiences (HNW migration, newcomer onboarding, cross-border FX, complaints) • Training curriculum for 200–300 frontline staff • Identify HSBC talent for HNW help desk	• Start monitor integration metrics and mitigate • Open an HNW help desk to ensure customer retention • Send simple, multilingual updates to clients	• Analyze and adjust according to metrics: HNW retention, FX, errors, NPS, staff confidence • Tweak CX, the leader guide, and training • Create a national toolkit and rollout schedule
Estimations	**$1.25M - $1.75M**	**$650K – $1.25M**	**$900K - $1.5M**	**$300K - $600K**	**~$600K**

	Stage 1				Stage 2					Stage 3		
Timeline	2026											
	Jan	*Feb*	*Mar*	*April*	*May*	*Jun*	*Jul*	*Aug*	*Sep*	*Oct*	*Nov*	*Dec*
Design and Planning	Research Migration Software	Change Consultants Build the Guide			Design end-to-end experiences for HNW and newcomer clients							
People and Development	Create merger integration team				Hire for HNW Help Desk			Open Help Desk, Send Updates, Monitor Results		Measure results and prepare to roll out across Canada		
Launch					Train Leaders on Cultural Integration	Launch the GTR pilot and protect HNW clients						

BUDGET ALLOCATION

Estimated investments required to enable culture, client experience, and operational integration

Targeted investment of $3.7M–$5.0M accelerates cultural alignment and migration readiness, unlocking a unified and premium One RBC client experience

Leadership & Culture Integration	Training & Cross-Skilling	Client Communication & Marketing	HNW Global-Premium Enhancements	Migration Command Centre
Estimated Cost: ***$650K – $1.25M***	*Estimated Cost:* ***$500K–$750K***	*Estimated Cost:* ***$300K - $600K***	*Estimated Cost:* ***$900K–$1.5M***	*Estimated Cost:* ***$1.25M-$1.75M***

$3.7M – $5.0M allotted

CLIENT & EMPLOYEE IMPACT

Enhanced client experience
- Enhanced client experience, improved onboarding, fewer errors, and a premium HNW migration journey

Preserved newcomer support
- Retains multilingual, globally experienced HSBC teams

Employee stability and confidence
- Clear roles, training, and leadership alignment

A **40–60% reduction** in onboarding errors **avoids $1–$2M in rework costs** during the GTR transition

OPERATIONAL SUSTAINABILITY

Reduced paper usage
- Streamlined digital onboarding and standardized documentation

Fewer branch revisits
- Error reduction which lowers the transportation footprint.

Operational consolidation
- Reduces duplication in back-office and client servicing

Restoring cross-border capability **generates $3–$7M** in incremental FX revenue **within 12–24 months**

oneRBC

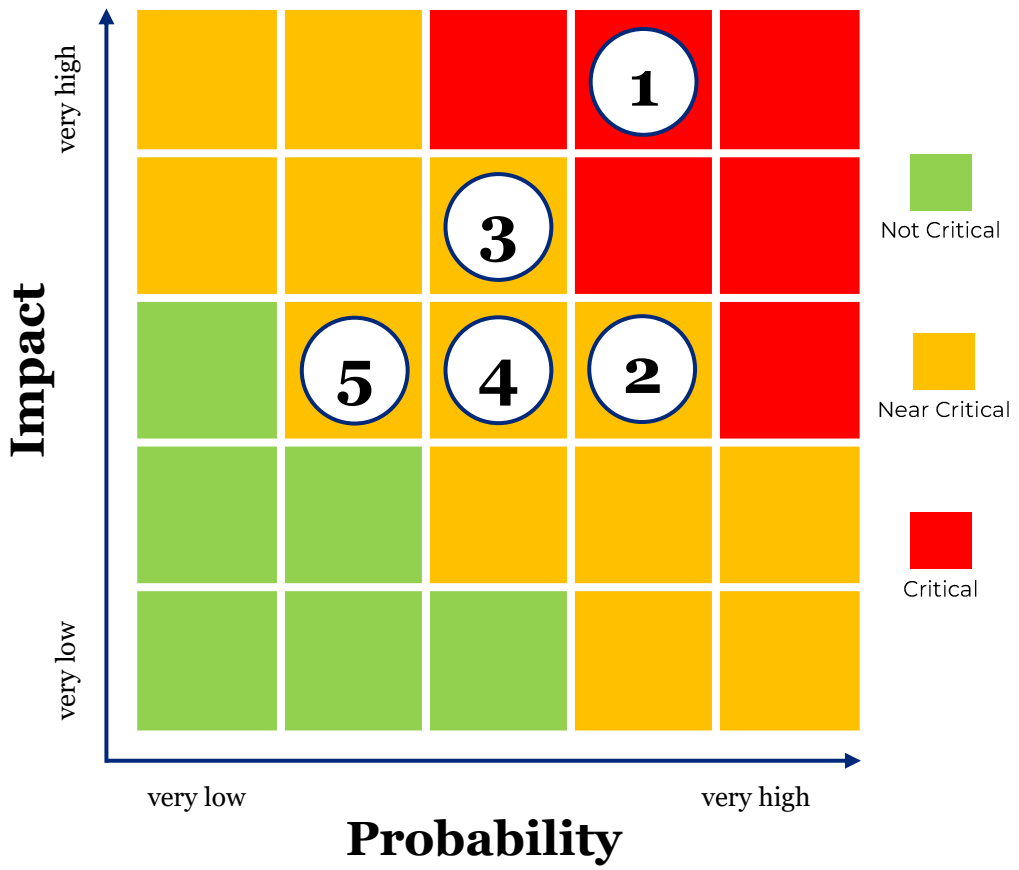
Unified culture, consistent service, and a seamless RBC–HSBC client experience.

RISKS AND MITIGATION

Proactive risk management and clear mitigation strategies will protect One RBC initiatives from disruption

Proactive, targeted mitigation across culture, talent, and execution risks is essential to protect One RBC integration outcomes and prevent client disruption

	Risk Identified	Mitigation Strategy
1	**Cultural Friction Across Teams** Different communication norms and service behaviors create an inconsistent client experience	**Culture Alignment Framework** Creates one unified standard through a shared playbook, routine alignment, and mixed-team integration
2	**Loss of Key HSBC Talent** Departure of advisors with global mobility skills weakens the advisory uplift and increases attrition costs	**Advisor Retention & Onboarding Program** Locks in key talent through retention incentives, defined roles, and senior-led onboarding
3	**HNW Client Attrition** Globally mobile clients perceive RBC's model as a downgrade, risking $250M–$1.5B AUM leakage	**HNW Service Continuity Model** Maintains high-touch delivery using concierge SLAs, FX specialists, and blended advisory pods
4	**Migration Errors & Service Disruptions** Duplicate KYC, documentation mismatches, and branch-level inconsistencies	**Integration Migration Control System** Improves onboarding accuracy with a central command center, SLA workflows, and real-time issue tracking
5	**Employee Fatigue & Change Resistance** Staff burnout reduces training ROI and negatively impacts client interactions	**Frontline Capacity & Engagement Plan** Strengthens execution quality with staffing buffers, sentiment monitoring, and a dedicated support channel



Defining the metrics that make culture, talent, client experience, and operations measurable across the GTR pilot

SUCCESS METRICS oneRBC | Making "One RBC" Measurable

CULTURE AND LEADERSHIP

- Leadership aligned by Month 9
- Engagement +15 points
- **Attrition under 10%**

CLIENT EXPERIENCE

- **NPS +15–20 HNW**
- 95% migration error-free
- Complaints reduced by 50%

TALENT

- **Top talent retained** at 12 months
- Proficiency achieved in under 60 days
- Mobility: 20–25%

OPERATIONAL EXCELLENCE

- Branch ready by Month 3
- **90% service adherence**
- Zero high-severity disruptions

What gets measured gets integrated — these four lenses make One RBC a lived experience, not just a slogan!

Tracking how culture, talent, clients, and operations converge into One RBC across the GTR pilot region

BRINGING ONE RBC TO LIFE

From two distinct banking cultures to one unified client and employee experience across every touchpoint

Bringing One RBC to Life

CHALLENGES WE SOLVED

- Merge Canada's most domestic bank with a globally mobile, cross-border franchise
- **Stabilize 4,000+ employees** and 780K clients while changing systems and brands
- **Protect GTR** — the most diverse, highest-stakes region as proving ground

OUR INTEGRATED SOLUTION

- **Leaders first**: shared norms, alignment cadence, visible GTR presence
- **Employees next**: fair talent mapping, HSBC expert retention, cross-border training
- **Clients at front line**: frictionless migration, Global Premier Desk, premium HNW experience

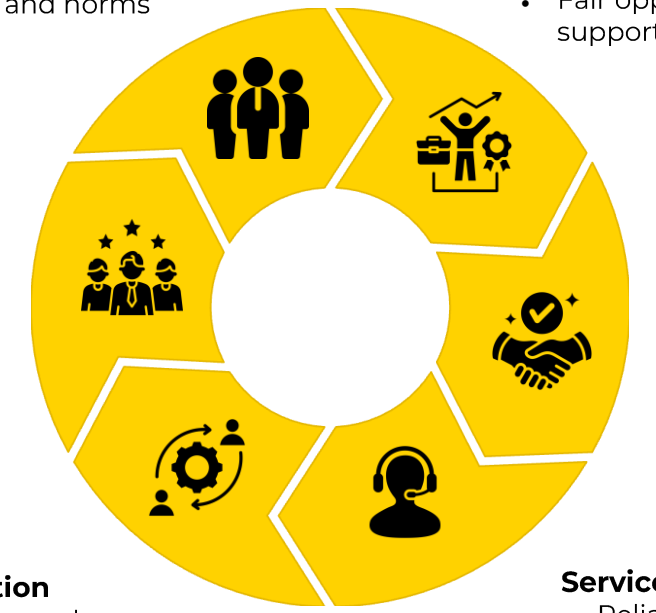
WHAT MAKES THIS WIN

- **Executable in GTR**: builds on existing playbooks and focused Command Centre
- **Scalable nationally**: repeatable across regions once proven
- **Measured end-to-end**: success tracked via dashboards tied to leader scorecards

Harmonizing OneRBC

Leadership Alignment
- Shared vision and norms

Employee Confidence
- Fair opportunities and support



HNW Retention
- Premium client satisfaction

Client Trust
- Seamless premium experience

Smooth Migration
- Error-free system changes

Service Consistency
- Reliable operations daily

One RBC is not a slogan — it's the experience we build, together, for clients and employees across every touchpoint

APPENDIX – 2: METRICS TRACKING METHODOLOGY

Comprehensive measurement framework ensuring integration success across all dimensions

Culture & Leadership Metrics

- **Leadership Alignment:** Monthly 360° survey (15Q, 5-pt scale)
- **Engagement:** Quarterly pulse survey tracking morale and clarity
- **Integration:** Biannual survey on shared values and behaviors

Talent Metrics

- **Top Talent:** Track high-potential retention at 6m, 12m milestones
- **Proficiency:** Track days to meet RBC standards (≥4.0/5.0)
- **Fairness:** Quarterly survey with >75% positive target
- **Attrition:** Monthly HR data vs 15-20% benchmark
- **Mobility:** % ex-HSBC in new/expanded roles by M12

Client Experience Metrics

- **NPS:** Post-migration survey at 3, 6, 12m vs baseline
- **Migration:** % error-free via Command Centre logs
- **Consistency:** Mystery shopper + audits using 20-pt checklist
- **Complaints:** % of migrating clients via monthly CX reporting
- **First-contact:** % resolved on first contact via CRM data

Operational Excellence Metrics

- **Readiness:** Checklist assessment, pass/fail, 100% by M3
- **Cross-border:** Track >4hr downtime, regulatory breach
- **Command Centre:** % issues closed in SLA (24-48hrs)

Monthly Tracking

Red/Yellow/Green status reporting to GTR Integration Lead

Quarterly Reviews

GTR Executive Council deep dive on lagging metrics

Leader Accountability

All four categories tied to leader scorecards

Governance & Reporting: This comprehensive methodology ensures transparency, accountability, and continuous improvement throughout the One RBC integration journey.

APPENDIX – 3: PROGRAM BREAKDOWN

What the program costs are comprised of for One RBC

Leadership & Culture Integration	Training & Cross-Skilling	Client Communication & Marketing	HNW Global-Premium Enhancements	Migration Command Centre
Leadership Alignment Workshops • 2–3 regional leadership summits • External facilitators for culture, communication, and integration • Venue, logistics, and materials **One RBC Leadership Playbook Development** • Codifying service standards, behaviors, and decision-making • Toolkit deployment across Retail, Commercial, Wealth **Manager Capability Training** • Training 50–100 leaders on cross-cultural leadership, change management, and escalations • Simulations for migration conversations and HNW handling **Culture Integration Workshops** • 15–20 mixed-team workshops bringing RBC + HSBC frontline staff together • Standardizing expectations and reducing friction **Change Management & Communication** • Multilingual communication packages • Weekly communication cascade	**Technical Training** • Training 200–300 employees • Content: FX flows, cross-border KYC, mobility advisory, multi-jurisdiction onboarding **HNW/International Advisory Simulations** • Role-play and case simulation for HNW client interactions • Specialized certification modules **Digital Learning Modules + LMS Setup** • Building online onboarding/migration training within internal LMS **Lost Productivity** • 2–4 hours per employee away from desk	**Mandatory Regulatory Notices** • English + multilingual mailers **Digital Communication** • Compliance-approved templates • Campaign management & tracking **Multilingual Translation** • Variety of languages **Web/App Migration Content** • Migration hub pages • Updated client FAQs • Migration status messaging	**Senior Advisors / International Specialists** • 3–5 senior hires (fully loaded) • Expertise: cross-border wealth, mobility, FX **1–2 FX Specialists** • Handling hedging, FX optimization, rate monitoring **Concierge / Arrival Services** • Relocation, settlement support, housing/schooling partners **HNW Digital Dashboard** • Multi-currency view • Alerts, messaging, HNW workflows **Partner Ecosystem** • Settlement consultants • Global mobility service providers	**Specialist SMEs (8–12 FTEs)** • KYC/AML experts • FX/International banking specialists • Wealth/Commercial integration SMEs **Temporary Analysts (4–6 roles)** • File prep, data validation, case management • Administrative support **Case Management Tools & Dashboards** • Real-time migration tracking • Issue resolution dashboards • KYC remediations tooling **Overtime / Weekend Support** • For peak migration periods • Support urgent client escalations

APPENDIX – 4: COST BREAKDOWN

A detailed breakdown of program investments across the core pillars of the One RBC integration

Client Communication & Marketing

Regulatory Notices - $175K–$300K
- 150–200K clients × $1.15–$1.50 each

SMS/Email Campaigns - $40K–$60K

Translations - $35K–$65K

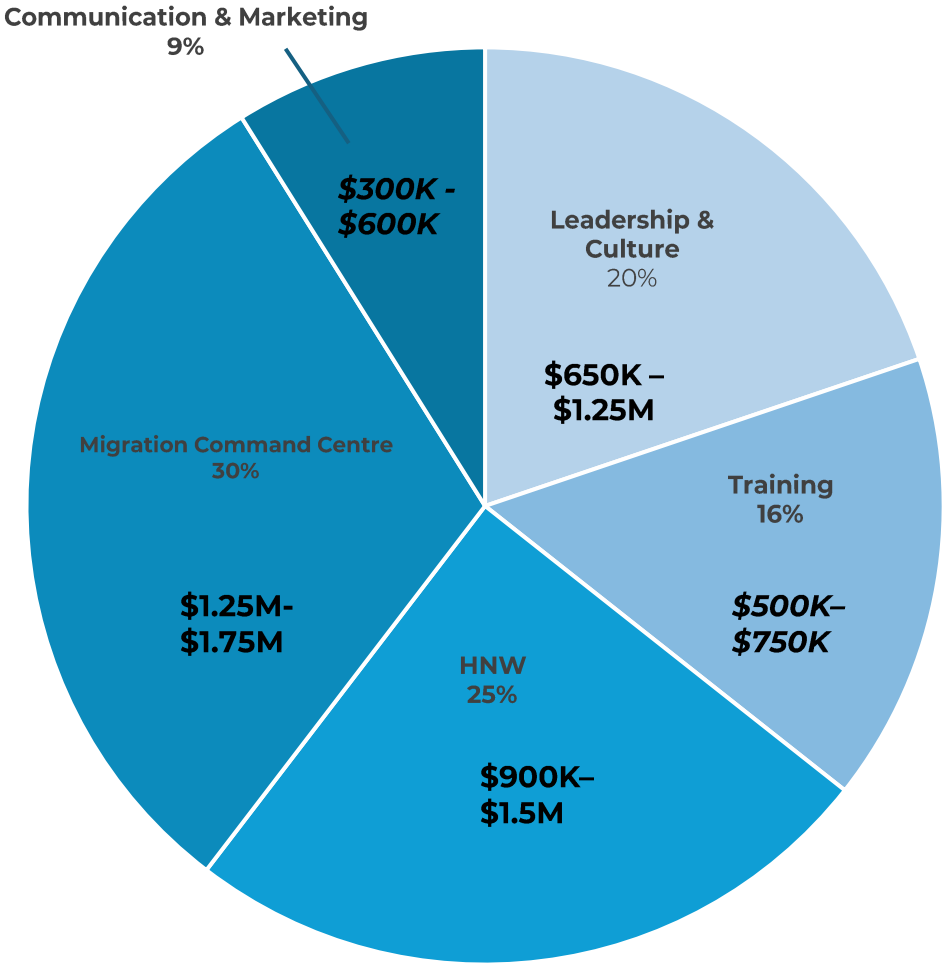
Digital Web/App Migration Content - $50K–$125K

Migration Command Centre

Staff Costs
- SME FTEs - $900K–$1.3M
- 8–12 SMEs × $130K–$170K fully loaded
- Temporary Analysts — $250K–$375K
- 4–6 temps × $90K–$125K

Tools/Case Management Platform - $60K–$90K

Overtime + Weekend Support - $40K–$60K



Leadership & Culture Integration

Leadership Alignment Workshops - $200K–$350K
- External facilitators $20K–$30K/day
- 60–100 leaders

Leadership Playbook Development - $100K–$200K

Manager Capability Training - $150K–$300K
- 50–100 managers
- $1.5K–$3.5K per manager

Culture Workshops - $125K–$250K

Change Management & Comms - $75K–$150K

Training & Cross-Skilling

Technical Training - $250K–$500K
- 200–300 employees × $1.2K–$1.8K per employee

Certification & Simulations - $175K–$225K

Digital Platform Modules - $100K–$125K

Lost Productivity - $75K–$100K

HNW Global-Premium Enhancements

Senior Advisors / International Specialists - $500K–$900K
- 3–5 advisors × $160K–$180K fully loaded

FX Specialists - $150K–$250K

Concierge Services - $100K–$175K

Digital Dashboard Build - $100K–$150K

HNW Partner Ecosystem - $50K–$100K

APPENDIX – 5: DECISION MATRIX RATIONALE

Rationale on decision matrix and ratings.

Leadership Alignment

A unified leadership model is essential because integration success depends on leaders sending the same signals across Retail, Commercial, and Wealth. Alternatives fail because they either dilute standards, create parallel leadership structures, or outsource influence. Only the integrated model aligns decision-making, expectations, and leadership behavior across both banks.

Employee Confidence

Employee confidence comes from clarity, stability, and support during change. The integrated model provides structured expectations, training, and consistency, giving frontline employees certainty. Alternatives introduce ambiguity, either through unfamiliar digital tools, competing cultural norms, or third-party advisors, weakening morale and increasing migration errors.

Culture & Behavior Consistency

Creating one culture is critical to eliminating service inconsistency and reducing friction across teams. The integrated model defines a single behavior standard for all employees, while alternatives maintain or introduce multiple cultures. Fragmented cultural norms directly translate to inconsistent client experiences and long-term operational instability.

Migration Execution Quality

High-quality migration requires predictable processes, consistent behaviors, and unified ownership. The integrated model secures all three, driving disciplined execution across branches. While digital-first or outsourced models offer speed, they lack consistent frontline behavior and governance, risking KYC issues, documentation errors, and client disruption.

Client Trust & Communication

Trust is built through consistent messaging, behavior, and service experience throughout the migration. The integrated model achieves this by unifying employee behavior and communication flows. Other models create mismatched expectations — digital clarity without branch consistency, dual internal cultures, or outsourced voices, all of which erode trust.

Long-Term Scalability

Scalability depends on a durable, uniform cultural and operating model that can expand nationally. The integrated approach creates a sustainable foundation for future migrations and cross-bank growth. Alternatives fail long-term because fragmented behaviors, incompatible cultures, or reliance on external advisors hinder consistency and national expansion.

APPENDIX – 6: ROADMAP METHODOLOGY

Rationale behind the 12-month integration roadmap, costs, and expected outcomes.

Roadmap Design	Cost and Resources	Client impact and Risk
12 months and 3 stages – Design , Pilot and Scale	• Stage 1 (~$2.5M): integration team + migration tooling • Stage 2 (~$1.5M): leadership program + journey design • Stage 2 launch (~$600K): HNW help desk, command-centre-style support, and multilingual client communications. • Stage 3 (~$1M): evaluation, toolkit, and rollout planning	• HNW help desk, proactive multilingual updates, and close tracking of HNW retention, FX flows, and complaints aim to keep retention in the 95–98% range vs. higher churn in typical mergers
Integration team – One owner, clear decisions	• Training assumes ~200–300 impacted staff in GTR; HNW support is delivered via a dedicated help desk model staffed by ex-HSBC and RBC talent	• Equipping 200–300 frontline employees with new journeys and scripts ensures the designed experience shows up consistently at branches and in contact centres
3–4 key journeys – HNW, newcomers, cross-border, complaints	• Figures align with typical integration spending: leadership & culture, training per employee, and 8–12 FTE command-centre style support for migration waves	• Stage 2 monitors integration metrics (errors, complaints, NPS) in real time; the integration team intervenes early, and Stage 3 refines guides and training before national rollout. • The cultural guide, standard HNW/newcomer journeys, training materials, and monitoring toolkit become a reusable “One RBC” playbook for other regions across Canada.
Month 3- Foundation Set Integration team, culture guide, and priority journeys defined; clear ownership and governance in place.	**Month 9 - GTR Pilot Live** HNW help desk operating, migration underway with monitored metrics, and early retention results visible.	**Month 12 - Ready to Scale** Measured impact vs. baseline, refined toolkit, and a sequenced rollout plan for other regions across Canada.
